

# Downtown Collection

Materials: FRP Fiberglass and Lightweight GFRC Concrete

By adding a distinctive curve and soft corners, Tournesol Siteworks offers a classic container, the Downtown Collection. Using tall, elegant proportions typical of the new modern, it adds flair to any project. All round, square and rectangular shapes carry the distinctive proportions, while available shallower, round sizes are useful for flower and color displays.

- Lightweight FRP fiberglass and GFRC are designed to be durable despite low weight - even for heavy-traffic locations
- Coordinates with our self-watering container irrigation products
- Metallic FRP finishes will naturally weather over time, like metal containers
- Round, square and rectangular sizes from 18" to 60", with customization available
- Matching Trash and Ash Bins available
