

Harlie Collection

Modern Planters, designed by Jason Bird

Materials: **FRP Fiberglass and Lightweight GFRC Concrete**

The prismatic form of the Harlie Collection by Australian designer Luxxbox is at once both faceted gemstone and articulated artifact. Drawing on gemology and mathematical principles with a playful reference to the geometry of the daring "Harlequin" in full costume, Harlie holds court with a killer design edge.

- Lightweight FRP fiberglass and GFRC are designed to be durable despite low weight - even for heavy-traffic locations
- Coordinates with our self-watering container irrigation products
- Metallic FRP finishes will naturally weather over time, like metal containers
- Several geometric tall and low-profile sizes from 18" to 60"

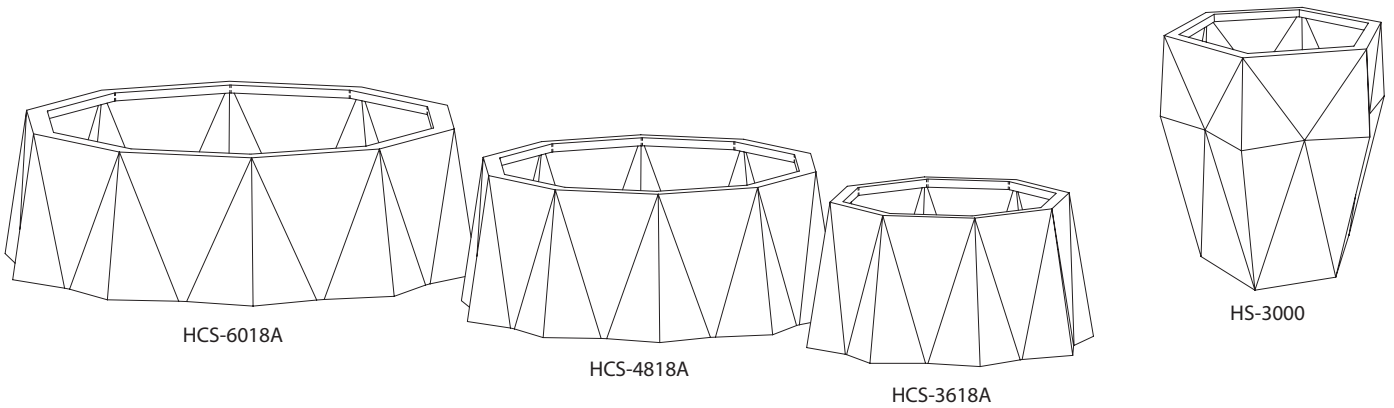

Harlie Collection planters are now available in Low Profile sizes from 36" to 60" in many FRP fiberglass and GFRC colors, textures and finishes. Check with your salesperson for more information.
