

MRC1402

MATERIALS: The recycling station frame is made using recycled aluminum. Sustainable components such as HDPE plastic, high density paper composite (HDPC) or Steel are used for the sides and door panels. Two- 23 gallon commercial grade plastic liners and a stainless steel top are provided.

FINISH: All steel components are protected with E-Coat rust proofing. The Maglin Powdercoat System provides a durable finish on all metal surfaces.

INSTALLATION: The recycling station is delivered pre-assembled. Holes (0.5") are provided in each mounting foot for securing to base.
