

Zena Collection

Sleek style, tapered planters

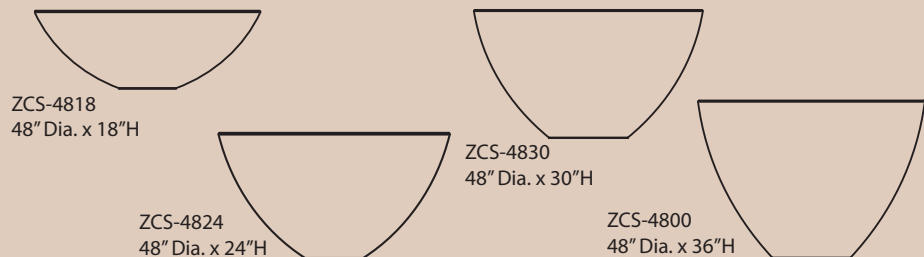

Zena Collection planters have a pronounced, highly-tapered design. The lightweight GFRC concrete is durable enough for high traffic locations yet light enough to be moved. With a wide rim and a narrow waist, the Zena Collection pots can be used as focal points for nearly any streetscape, adding a sleek style to urban environments.

- Applied finishes feature natural quartz and mica sands, and can be refinished and repaired on site as required
- Lightweight GFRC has six available textures which range from the rustic to the refined
- Coordinates with our industry-leading self-watering container irrigation products
- Round sizes from 24" to 60"

The Zena Collection includes a wide range of widths and heights. Starting at 24" in diameter, widths vary to 30", 36", 48" and 60". The heights of the Zena pots are proportionate to the widths, ranging from 18", 24", 30", 36" and 42."
