

Plaza Collection Receptacles

Classic Steel Strap Trash/Ash Receptacles and Recyclers

Materials: **Mild Steel**

Plaza Collection Receptacles provide an attractive solution to litter control in public places. The trash receptacles are fabricated with steel straps and simple clean lines to match the Plaza Collection benches and ash receptacles. These steel strap receptacles are manufactured in many configurations and feature hinged side open doors, dome tops, removable tops and pedestal bases.

Plaza Bench with PZ-200 and PZ-070-30

- Strong 1/4 x 1-1/2" or 1/4 x 2" steel straps, fully welded to 1-1/2" or 2" ring framework.
- These commercial grade receptacles are strong, attractive and durable.
- Plaza receptacles can be matched with benches, ash receptacles, and picnic tables.
- This collection has various steel strap designs to meet specific project needs.

The versatile Plaza Collection Receptacles are available in several styles including removable tops, hinged tops and hinged side opening. Each receptacle features four internal holes enabling it to be bolted to the ground as surface-mount.

Modifications

Multi-use Receptacle Tops with recycle openings. PZ-075 (TR-12) shown with Trash and Recycle options

Decal Plates on Steel Receptacles PZ-075 with TDP Trash or Recycle options

Recycling matters to the health of our environment. To easily separate recyclable material from waste, Tournesol offers modifications to most of our receptacles to convert them into recycle or multi-use containers. For converted modifications, we offer specific recycle top options, divided liners for two different recycle streams or a combination recycle/trash, and decals for both tops and sides.

Ask about our custom branding options. From inlaid sponsor plaques on seat sections to custom laser-cut logos on trash receptacles, the Plaza Collection offers a variety of options for specific applications. Ask your Tournesol Siteworks salesperson for details.
