

SLIMLINE ARCH

SLEEK, CLEAN LINES

The Slimline Arch is a sleek, classic design with a sweeping roof and maximum opportunity for light and airflow.

Standard options include clear or bronze anodized finish, or choose custom wall and roof glazing to shape this design to match your brand colors. Select from aluminum, structured polycarbonate, or acrylic glazed roof.

The Slimline series is versatile in size and can be tailored to fit nearly any specific dimension. For a narrow footprint, cantilevered roofs are ideally suited to limited pathways. Slimline Series shelters are easily configured for branding through color choices, graphics, and display options.

Brasco's engineering team calculates all shelters to meet local wind, snow & seismic load requirements.

Below: White acrylic roof, clear anodized finish with Eclipse HDPE slat bench. Custom infill at top.

Standard Specifications
