

THE ECLIPSE

BOLD, URBAN ELEGANCE

The Eclipse Series in arch or sloped roof delivers an urban edge to any streetscape with its bold round columns and sharp blade rafters.

This design features pocketed columns and header to conceal hardware and provide unparalleled structural integrity. Available in either cantilevered or full-sided walls in a variety of wall glazing, all of which can be tailored with custom branding elements.

Standard elements include powder coat painted finish and aluminum, acrylic, or structured polycarbonate roof glazing. The Eclipse Series is ideal for Brasco's low profile flex solar panel and header mounted battery box lighting package, front windscreen, or ad box.

Brasco's engineering team calculates all shelters to meet local wind, snow & seismic load requirements.

Below: Aluminum arch cantilever roof with partial side walls, custom ceramic frit walls.

Standard Specifications

WIDTH

5'

LENGTH

8', 10', 12', 16', 20'
