

# SLIMLINE HIP

CLASSIC, TIMELESS SILHOUETTE

The Slimline Hip offers a classic and timeless design with three roof glazing options. The symmetrical silhouette of a hip roof beautifully fits any environment.

Standard options include clear or bronze anodized finish, or choose custom wall and roof glazing to tailor this design to match your brand colors. Select from an aluminum, structured polycarbonate, or acrylic glazed roof.

The Slimline series is versatile in size and can be tailored to fit nearly any specific dimension. For a narrow footprint, cantilevered roofs are ideally suited to limited pathways. Slimline Series shelters are easily configured for branding through color choices, graphics, and display options. Brasco's engineering team calculates all shelters to meet local wind, snow & seismic load requirements.

**Below:** Standing Seam Aluminum Hip in Matte White with 6" fascia and integral gutter, full side walls, Center Windscreen, and 2-Sided Ad Box with Solar Lighting.
