

SLIMLINE BARREL

DISTINCTIVE, CLASSIC LOOK

The Slimline Barrel is an iconic outline and Brasco offers both low and high profile pitches.

Standard options include clear or bronze anodized finish, or choose custom wall and roof glazing to tailor this design to match your brand colors. Select from a structured polycarbonate, acrylic, or aluminum sheet roof glazing options.

The Slimline series is versatile in size and can be tailored to fit nearly any specific dimension. For a narrow footprint, cantilevered roofs are ideally suited to limited pathways. Slimline Series shelters are easily configured for branding through color choices, graphics, and display options.

Brasco's engineering team calculates all shelters to meet local wind, snow & seismic load requirements.

Below: Bronze acrylic high-profile barrel roof with full side walls, front centered wind-screen, and ceramic frit glass pattern.
